

Vitamin and/or Mineral Supplements should not replace a balanced diet. Not for the treatment of iron deficiency conditions. Contains selenium which is toxic in high doses. A daily dose of 150 micrograms for adults of selenium from dietary supplements should not be exceeded. **The recommended daily amount of vitamin A from all sources is 700 micrograms retinyl equivalents for women and 900 micrograms retinyl equivalents for men. WARNING: When taken in excess of 3000 micrograms retinol equivalents, vitamin A can cause birth defects. If you are pregnant, or considering becoming pregnant, do not take vitamin A supplements without consulting your doctor or pharmacist.** Do not use if cap seal is broken or missing. "NutriChew" is a registered trademark of Nutristar Solutions Pty Ltd Australia. Store below 30°C **COMPREHENSIVE VITAMIN B COMPLEX:** NutriChew® chewable multivitamins are a broad range multivitamin containing B group vitamins. **ESSENTIAL CALCIUM:** A diet deficient in calcium can lead to osteoporosis in later life. Adequate dietary calcium throughout life is required for bone health. **TRACE ELEMENT SUPPORT:** Various trace elements in NutriChew® chewable multivitamins may assist in the protection of cell membranes, support wound healing and assist in the metabolism of sugar. **PROMOTES THYROID SUPPORT:** NutriChew® chewable multivitamins contain iodine which is essential to healthy thyroid hormone production. Thyroid hormones are important for normal development and metabolism. **CONTAINS MENAQUINONE 7**, a form of Vitamin K that is synthesised by bacteria in the digestive tract. In the body Vitamin K is important for bone health. **DIRECTIONS:** Adults: Take one tablet, twice daily, with or without food or as advised by your health care practitioner. **Manufactured for Nutristar Solutions Pty Ltd, 51 Crannock Court, Forestdale (4118) AUSTRALIA PH: +61 7 3806 7866**
